

CAP 5 - MUITO ESTILO SEM SOFRIMENTO

PÁGINAS DO HEALTH TRACK USANDO HTML, CSS

Faça o upload de sua atividade na plataforma FIAP ON, na seção de atividades, e aguarde a nota e o feedback do professor.

Todos os conhecimentos adquiridos e relacionados às tecnologias HTML, CSS e Bootstrap (capítulos 3 a 5, respectivamente) serão extremamente úteis para este desafio: desenvolver as telas do Health Track!

Com base nas telas que foram desenhadas na Fase 2 (Prototyping), você deve transpô-las, desenhando-as em HTML, CSS e Bootstrap.

Algumas observações:

Mantenha o HTML separado do CSS em arquivos .html e .css, respectivamente.

Use e abuse o Bootstrap: deixe o CSS para personalizações que “fujam” dos padrões do framework (com ele é mais rápido!).

Cuide da navegação do sistema. O formulário de login deve ser redirecionado diretamente para a página do dashboard (posteriormente, com uma programação intermediária, vamos processar a autenticação validando o login e a senha).

A página do dashboard deve possuir um menu com links para as outras funcionalidades.

Os formulários de adicionar/cadastrar informações devem redirecionar diretamente para as listagens de suas informações (por enquanto, não se cadastra nada, de fato).

Formulários de alteração ou listagens devem possuir dados fictícios para termos uma ideia de como a tela vai ficar quando realmente estiver pronta.

Fique à vontade para criar um layout bem atraente, utilizando fotos, imagens, ícones (mas use o bom senso).

Padrões são importantes

O sistema deve possuir uma identidade visual única (padrões de textos, bordas, tabelas, fontes etc.), de acordo com o padrão escolhido.

Aproveite os recursos do Bootstrap para criar o seu layout responsivo, desde 2015 o Google prioriza em seu ranking os sites adaptados para mobile; além disso, 60% dos acessos aos sites têm origem nos smartphones! Para desenvolver, você pode utilizar uma IDE como Sublime Text, Atom ou o VSCode, ferramentas mais leves que o Eclipse (que será essencial com a orientação a objetos e Java, mas, no momento, pode parecer “um canhão para matar uma mosca”). Fica a seu critério.

Utilize a estrutura de pastas para se organizar, faça um pacote ZIP contendo todos os arquivos do seu projeto: .html, .css etc. (necessários para o Bootstrap) e nos entregue. Não se esqueça de nada, ok?

Muito bem! Boa atividade e, qualquer dúvida, estamos por aqui, combinado?

•

```

Tela 3 -> CADASTRO

The screenshot shows a mobile application interface for a registration screen. The background is a solid blue color. At the top left, there is a red back arrow icon. The title 'Cadastro' is centered at the top in white. Below the title, there are four input fields, each preceded by a red label: 'Nome', 'Email', 'Senha', and 'Confirmar Senha'. The 'Nome' field contains the text 'Nome', the 'Email' field contains 'seu@email.com', and both the 'Senha' and 'Confirmar Senha' fields contain six asterisks. At the bottom of the form is a red button with the white text 'Salvar'.
